The screenshot displays the Tableau Desktop interface. On the left, the 'Connections' pane shows 'netflix_titles' as the selected data source. Below it, the 'Files' pane lists various CSV files, including 'netflix_titles.csv'. The main view shows the 'netflix_titles' data source selected, with a preview of the data table. The table has columns: Type, Field Name, Physical Table, and Remote Field. The data rows show titles like 'Movie', 'TV Show', and 'TV Show' with their respective details.

The screenshot shows the Tableau Desktop interface. A bar chart titled 'Sheet 1' is displayed, showing the distribution of 'Type' (Movie and TV Show) across 'Rating' (1 to 5). The chart is a horizontal bar chart with 'Type' on the x-axis and 'Count' on the y-axis. The 'Add Filter' dialog box is open, showing the 'Select a field:' dropdown set to 'netflix_titles.csv' and 'Rating' selected. The background shows the Tableau workspace with 'Columns' (CNT(netflix_titles.csv)), 'Rows' (Type), and 'Marks' (Automatic) shelves. The 'Parameters' pane on the left shows 'Simulated_User_Role'.
