TABLEAU PRACTICAL NO. 6

AIM: Designing Effective and Visually Appealing Dashboards

- Apply worksheet-level and workbook-level formatting
- Customize number, date, and null value formatting
- Design effective color schemes and layouts
- Create informative tooltips
- Implement "Viz in Tooltip"
- Improve readability and user experience
- Apply best practices for visual storytelling

The screenshot shows the Tableau Desktop interface. The top menu bar includes File, Data, Server, Window, and Help. The main workspace is titled "List of Orders - Copy.csv+ (Multiple Connections)". Below the title, there is a diagram showing a connection between "List of Orders - Copy.csv" and "Order Details.csv". The "Connection" section shows "Live" selected over "Extract". The "Filters" section shows "0 | Add".

On the left, the "Files" pane lists various CSV files: Categories.csv, Customers.csv, Geolocation.csv, List of Orders - Copy.csv, List of Orders.csv, Order Details.csv, Order Items.csv, Order Payments.csv, Orders.csv, Products.csv, Reviews.csv, Sales Forecast.csv, New Union, and New Table Extension. A tooltip for "New Table Extension" says "Go to Worksheet".

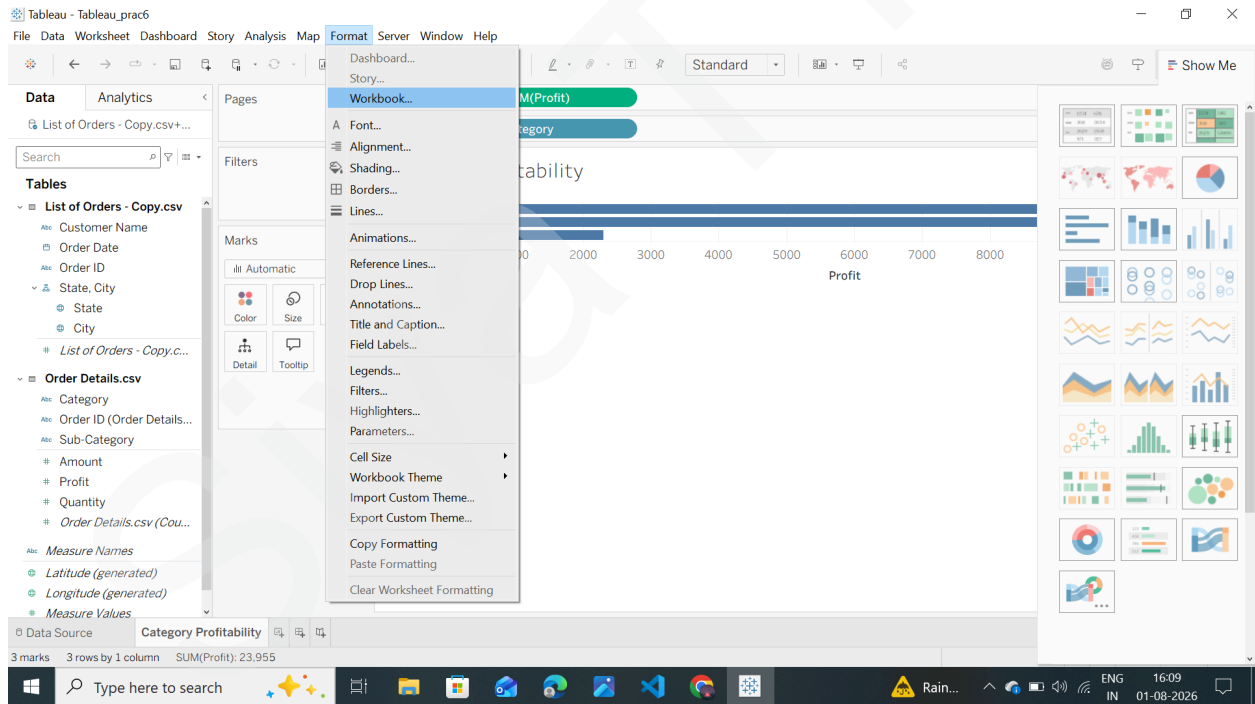

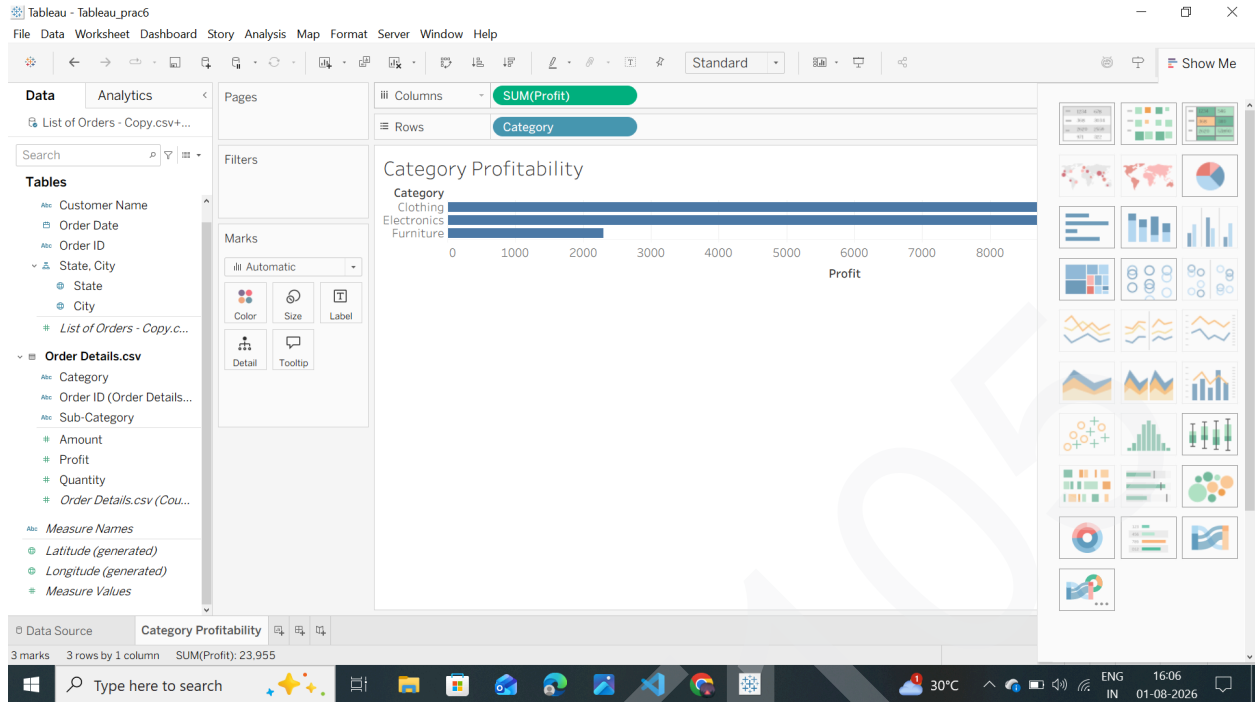

The main data view shows a table with the following data:

Order ID (Order Details.csv)	Amount	Profit	Quantity	Category
B-25601	1,275.00	-1,148.00	7	Furnitu
B-25601	66.00	-12.00	5	Clothii
B-25601	8.00	-2.00	3	Clothii
B-25601	80.00	-56.00	4	Electr

The bottom status bar shows the system clock as 16:03 on 01-08-2026, along with other system icons.
